

# mini-ball™ Test Valve

The dahl mini-ball™ Test Valve is a reliable, compact tool for air-testing piping systems. The integrated 1/4" turn shut-off valve means you can use it with either a compressor or a snifter valve. Best of all, it's dahl quality that you can depend on.

Made in Canada  
with American Brass

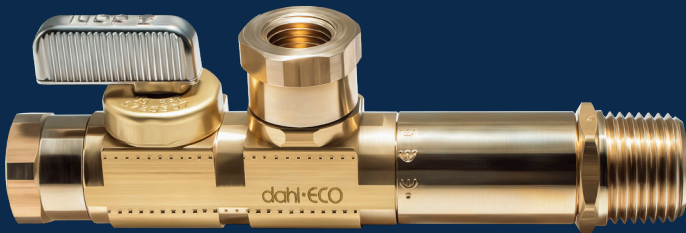

# 04FL

dahl Part #: 521BLD-51-04FL-51

1/4" FIP x Fem Swivel Hose Long x 1/4" FIP

# 01L

dahl Part #: 521BLD-51-01L-51

1/4" FIP x 1/2" MIP

## Benefits

- Compact and lightweight for easy storage and handling
- Integral shut-off
- 1/4" female NPT outlets for gauges and compressor quick connects or snifter valves
- Long inlet connections allow for gauge clearance

## Applications

### Water Supply

- Connect the female hose model to hose bibbs
- Connect with a push-fitting adapter on the 1/2" male NPT inlet model to 1/2" Copper, PEX or CPVC rough-ins

### Drainage

Connect the 1/2" male NPT inlet model to a 1/2" female NPT coupling in a flexible coupling
