

TEST VALVES

Compact Tool for Air-Testing Piping

dahl **mini-ball™** Test Valves are compact, lightweight, and designed for easy handling and storage – ideal for testing and inspection applications. Each valve features an integral shut-off for added control and convenience, with 1/4" female NPT outlets to accommodate pressure gauges, compressor quick connects, or snifter valves. The extended inlet connection provides ample clearance for gauges, ensuring a hassle-free setup even in tight spaces.

APPLICATIONS:

WATER SUPPLY

- Connect the female hose model to hose bibbs
- Connect with a push-fitting adapter on the 1/2" male NPT inlet model to 1/2" Copper, PEX or CPVC rough-ins

DRAINAGE

- Connect the 1/2" male NPT inlet model to a 1/2" female NPT coupling in a flexible coupling

COMPACT AND LIGHTWEIGHT WITH INTEGRAL SHUT-OFF

dahl Part #: 521BLD-51-01L-51

1/4 FIP x 1/2 MIP or 1/2 Fem. Solder Long x 1/4 FIP

dahl Part #: 521BLD-51-04FL-51

1/4 FIP x Fem Swivel Hose Long x 1/4 FIP
