The simple way to silence water hammer

Use **dahl** Water Hammer Arrester Valves to control water hammer created by washing machines, dishwashers, icemakers, single lever faucets, and even toilets

- Unlike conventional standpipes, air risers or air chambers that become waterlogged, **dahl** utilizes an ASSEI 010 AA Arrester with a dual O-ring piston that maintains a permanent cushion of air to absorb pressure spikes
- 1/4 OD Comp models available
- Extends life and protects appliances and fixtures from water hammer damage
- Compact integral design
- Install vertically, horizontally, or at any angle
- Available to suit most end-of-line pipe types and sizes
- Retrofit models install in just minutes!

511-QG3-31-14WHA
